maximum size without seams:	430 x 470 cm
Special shapes & design:	available on request
cleaning :	www.james.eu
design :	Carpet Sign studio

Durability

- Linen has no resilience. This can cause flattening of the yarns.
- This rug can be used with under-floor heating, unless it is a wall to wall carpet.
- Mistral has officially been tested for residential use, Mistral 48 is suitable for residential and (light)contract use. Not suitable for (office)castor chairs.

Maintenance

- It is important to vacuum your rug at least once a week to prolong its durability.
- a new rug will produce fluff, but this is temporary. This fluff does not affect the quality of your rug.
- In order to prevent heavy use on one particular location, we recommend turning your rug around once in a while.
- Due to our use of natural materials, slight colour differences may occur.
- We offer personal maintenance advice via www.james.eu

Underlay

- For rugs to be placed on wooden floors or natural stone floors (e.g. marble), the use of an underlay is strongly recommended.

Warranty

- Carpet Sign offers 5 years warranty (excluding shading)
