MAINTENANCE

It is important to vacuum your rug at least once a week to prolong its durability.

A new rug will produce fluff, but this is temporary. This fluff does not affect the quality of your rug.

The ideal air humidity for wool is around 50%. Please note that if the air humidity is below 50%, the material becomes dry and its natural elasticity will decrease. In order to prevent wool from drying out, we recommend we recommend -if the design allows this- turning around your woollen rug regularly.

Due to our use of natural materials, slight colour differences may occur.

Individual maintenance advice will be attached to every order.

This quality has officially been tested and is suitable for residential and [light] contract use.

In case of a wooden or marble floor, the use of an underlay is strongly recommended. CS rugs does not accept any claims concerning damages of the floor caused by not using an underlay.

Our rugs are suitable for floor heating

PACKAGING & LOGISTICS

The packaging is exactly tailored for each product, using a minimal amount of packaging material. Moreover in this way the product is optimally packed and well protected during transport. The carriers that collaborate with CSrugs give, just as CSrugs, high priority to durability.

They aim at reducing the CO₂-emissions through, among others, the use of cleaner engines (EURO VI), the effort in reducing fuel consumption, optimizing the loading space and optimal planning.

RE-USE

CSrugs aims for a sustainable economy in which materials are reused as much as possible in order to limit CO₂-emissions. We do this by re-using our yarns, recycling waste materials and producing high-quality rugs with longevity.

CSrugs manufactures made to order-based. Due to customized purchasing, residual materials have been kept to a minimum.

LOCALLY MADE PRODUCTS

CSrugs produces (machine tufted) all its rugs in its own production locations in Astén, the Netherlands.

WARRANTY

CSrugs guarantees the quality of her rugs for a period of 5 years [outdoor designs: 3 years]. Guarantee applies to early discovery of wear resulting from pile loss. This guarantee does not cover damage caused by excessive mechanical force or scratching by pets.

EXTRA DETAILS

- Netto tufted shapes and design (zero waste)
- Maximum size without seams: 460 x 480 cm
- 12 standard colours
- Customized colours available via our [configurator](#)
- Visualisation: pCon drawing tool + sketchup
- Sample wall + sample boxes available
