## New collection JEWEL

'Jewel' is a sculptural 3D rug collection where depth, texture, and luxurious detailing come together. The contrast between high and low bouclé pile heights and the shimmering sparkles results in a rich, tactile surface with a strong sense of dimension.

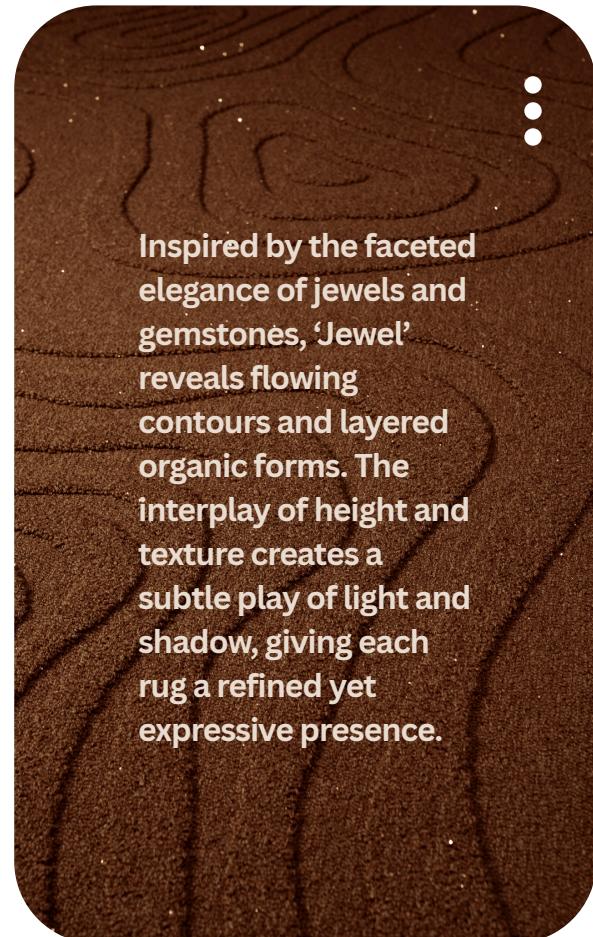

Jewel is a loop pile rug with a height varying from 10 to 18 mm, featuring a wavy design.

sparkle.

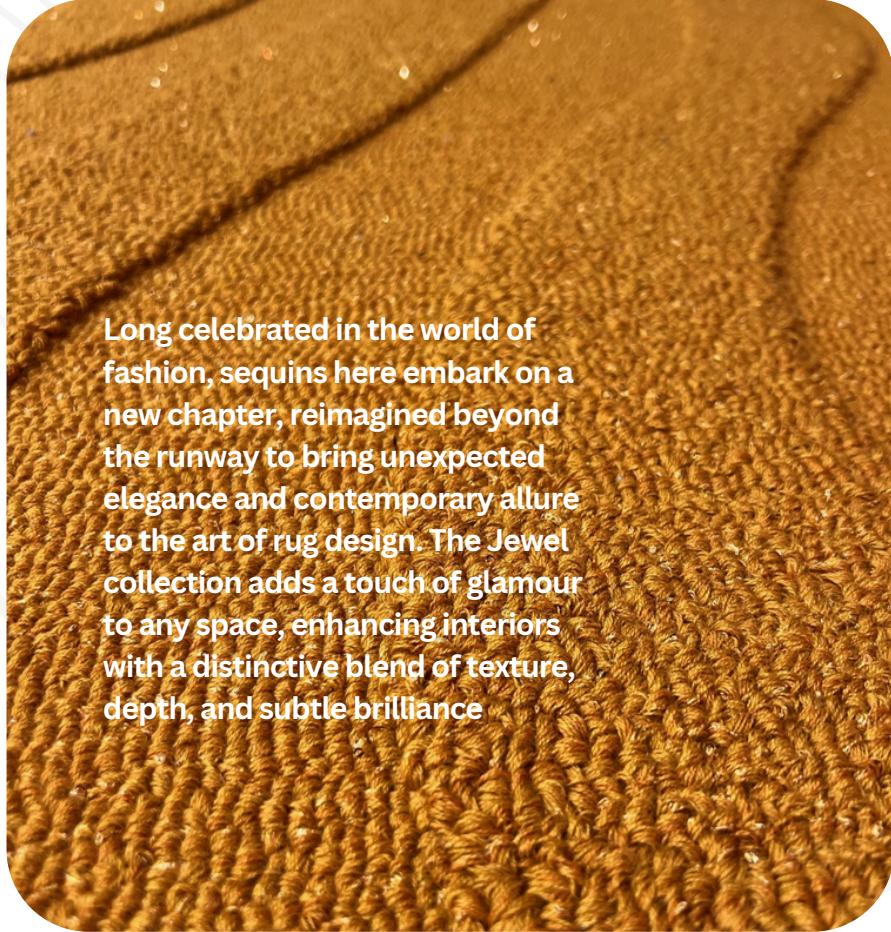

CSrugs' 'Jewel' collection is unique and a true gem to behold. Derived from the cross-section of a gemstone, Jewel is designed with layered depths translated into flowing, three-dimensional waves. Jewel is a loop pile rug with a height varying from 10 to 18 mm. There are multiple designs available.
